

## LePage PL Premium PUR Construction Adhesive

**Product #** 519300

### DESCRIPTION

Premium-quality polyurethane adhesive is a strong, versatile construction glue that provides superior adhesion to most common construction materials.

### ADVANTAGES AND BENEFITS

- Offers double the performance of the popular adhesives - Waterproof; ideal for indoor/outdoor applications - Paintable and sandable - No shrinkage - Cures even in cold temperatures

### TECHNICAL SPECIFICATIONS

<b>Product #</b>	519300
<b>Volume</b>	10 oz
<b>Base</b>	Polyurethane
<b>VOC Concentration (EPA Method 24)</b>	45 grams per liter
<b>Standards and Certifications</b>	GREENGUARD, ASTM D3498, APA AFG-01, ASTM C557
<b>Open Time</b>	15 to 20 minutes
<b>Finish/Color</b>	Brown
<b>Viscosity</b>	550 000 cps
<b>Freeze/Thaw Stability</b>	Stable
<b>Brand</b>	Lepage
<b>Recommended Use</b>	Interior, Exterior, Durable Assembly Adhesive, Polyurethane Construction Adhesive, General-Use Glue, Bonding Porous Surface to Non-Porous Surface
<b>Foams when Drying</b>	No
<b>Application Temperature</b>	-7 °C to 35 °C (19 °F to 95 °F)
<b>Solid Content (approx.)</b>	90%

### APPLICATION

Suitable for: - Wood - Plywood, OSB and MDF - Treated wood such as hardwood flooring - Masonry such as concrete, brick, stone, granite, marble and slate - Foam insulation of all sorts including EPS (expanded polystyrene foam), XPS (extruded polystyrene foam) and polysio (urethane) foam - Carpets - Metals including stainless steel and galvanized metals - Lead - Cement-based products - Ceramic - Fiberglass - Drywall - Rigid and cellular vinyl/PVC trim and molding - Poly-ash trim
