

Particulate Filter 2071 for 6000, 6500QL & 7500 Series

Product # 9609224

DESCRIPTION

The 3M Particulate Filter 2071, P95 with advanced filtration technology has been developed with your respiratory needs in mind.

ADVANTAGES AND BENEFITS

- NIOSH approved P95: At least 95% filtration efficiency against solid and liquid aerosols including oils.
- Comfort: 3M's advanced filter technology provides a lightweight, easy breathing combination not found in fiberglass containing filters.
- Versatile protection: The 2071 is well suited for a wide range of oil and non-oil based particulate contaminants and can be used as a prefilter for certain chemical exposures.
- Simplicity: The versatility of this filter reduces your inventory and training requirements.
- Compatibility: The 2071 can be used with 3M's wide variety of half and full face pieces.
- Durability: The unique flexible filter material resists abrasion and wetting. Filters are flame and water resistant.

REQUIRED PRODUCTS

Requires ONE of the following products

Half-Face Siliconed Respirator Series 7500

OR

Half-Face Respirator 6500QL Series

TECHNICAL SPECIFICATIONS

Product #	9609224
Protection	Against Certain Oily Particles
Type	Half-Face Respirators and Accessories
Brand	3M

APPLICATION

- Grinding - Welding - Sanding - Sawing - Sweeping - Bagging - Other dusty, oily operations - Welding - Torch cutting - Brazing - Soldering
