

2-C-PUR Reaction Adhesive

Product # AU200281PU

DESCRIPTION

Solvent-free

Thanks to its wide adhesion spectrum, this glue can be used for a variety of different applications and provides excellent resistance to heat and weather.

This product is provided in a convenient twin-cartridge packaging with both components. Just install the applicator tip where the two bottles connect to properly apply these substances simultaneously.

Kit of 2 bottles of 190 ml

ADVANTAGES AND BENEFITS

- Strong adhesive joint - Solvent-free - Thixotropic, does not drip - Good weatherproofness - Large gap bridging - Can be painted over - Can subsequently be powder-coated (30 min./ +230°C (+446 °F)) - Features easy handling of tandem cartridge with static mixer - French VOC-Emission Class A+

TECHNICAL SPECIFICATIONS

Product #	AU200281PU
Finish/Color	Off White
Material	Polyurethane

APPLICATION

- Aluminum door and window manufacturing for bonding of corner connectors - Bonding of aluminum, HPL, GRK, and other materials - Structural, force-locking bonding of the highest variety of material combinations such as in vehicle body manufacturing - Joint restoration of gypsum fibre boards

IMPORTANT INFORMATION

Pot-life, processing time, as well as the necessary pressing time or fixing time, can only be determined accurately by self-tests because they are strongly influenced by material characteristics, temperature, mixed quantity, applied quantity, and other criterion. For processing, appropriate safety allowances should be planned in addition to the specified guiding values.
