

Protective Roof or Hood Cover

Product # AUVTP586

DESCRIPTION

The roof or hood of an automobile is often a convenient place for technicians to put their tools, screws and other parts when replacing the windshield. The protective Equalizer® cover is the solution to avoid damage to the roof paint, which nowadays has seven layers and therefore practically impossible to touch up when scratched. Made of a thick, soft, soil-proof vinyl, you can use the protective cover for years.
