

Decorative Mirror Trim

Product # EX675C

DESCRIPTION

Flexible Edge Protector

Mirrored plastic strips enhance and beautify the edges of decorative mirrors in mirrored wall installations by presenting the appearance of a fine finished edge. They are also used to cover imperfections on exposed mirror edges or as a shelf edge protector.

ADVANTAGES AND BENEFITS

Its flexible side can arch slightly. No adhesive required, which makes installation easy. If necessary, it can be cut easily with a pair of scissors or a metal saw.
