

## Rectangular Glass Clamp - Flat Post Mount - Model 509

**Product #** HRGCS650900170

**Recommended Location Usage** Interior / Exterior

**Material** Stainless Steel 316

### DESCRIPTION

#### 65 mm height with detachable safety lock pin and safety plate

Set of two rectangular clamps for installation of a glass panel between two square posts.

The optional safety lock pin is included to keep the glass in place and prevent the glass from sliding.

An optional safety plate for face mount installation of posts included -- no pre-drilling required.

A set of protective joints, sold separately, is required for installation.

### ADVANTAGES AND BENEFITS

Increases glass stability when used with end plate or safety lock pin. No glass drilling required when using the safety plate. End plate is equipped with rubber stops, to prevent the glass from moving after installation, even if used without the safety lock pin.

Ideal for designing railings and glass balustrades with handrails.

## INCLUDED PRODUCT(S)

Set of two rectangular clamps. Stainless steel safety lock pin covered in rubber. Detachable safety plate with rubber stop. M8 mounting screws. Screw cap.

## IMPORTANT INFORMATION

Not using the safety lock pin during installation may result in the glass sliding. Glass drilling is required when using the safety lock pin. Make sure to use proper joints according to the glass thickness. For safety purposes, use tempered glass. This illustration is provided for visual reference only. Actual product may vary. Order hardware before starting the job. The manufacturer reserves the right to change product and information without notice. Always follow the instructions inside the package. Drawings and technical documents contain examples of hardware from different manufacturers. The customer may not in any case make a claim following the use of these documents. The Company disclaims any responsibility for the structural details related to a construction or project. Installation must always be done by qualified personnel. Make sure that the product is properly installed using suitable fixtures on the support material.
