

Mylar Tape

Product # IGMT1321

Width 7/16 in

Packaging format Roll

DESCRIPTION

100'

The tape is made from a special laminate that minimizes the transmission of water vapor. It also functions as an excellent barrier to a variety of gases. Sold in rolls of 100'.

ADVANTAGES AND BENEFITS

The adhesive provides very good adhesion to a wide variety of substrates and exhibits the excellent durability and long-term aging properties typical of an acrylic polymer. Edgetech's Mylar tape consists of a special laminate coated with a high-performance, pressure-sensitive acrylic adhesive on one side and is protected by a release-treated poly-coated liner. Mylar tape for sealing connecting edges and gas fill points on Super spacer.

TECHNICAL SPECIFICATIONS

Product #	IGMT1321
Length	100 ft
