

Acrylic 90° Hemispheric Safety Mirror

Product # MICH9018

DESCRIPTION

Lightweight, solid acrylic construction.

Helps eliminate blind spots in hallways or intersections. Reduces the risk of accidents and shoplifting.

90° quarter dome style ideal for corners.

- Designed for two-way intersections.

ADVANTAGES AND BENEFITS

- Virtually unbreakable and very lightweight - Projects a clear image and doesn't fade over time - Richelieu mirrors are pre-perforated for easy and fast installation
