

Double-Sided Adhesive High-Density Black Foam Tape for Glass Glazing

Product # SAFTSGT1838

DESCRIPTION

Designed specifically as a spacer in structural silicone curtain wall needs

Products are made of high density closed-cell Polyvinyl Chloride foam.

Products are coated on each side with an aggressive, high performance S3 solvent acrylic pressure-sensitive adhesive and covered with a 5-mil blue polypropylene film liner.

Can also be used in a wide variety of other applications that previously relied on costly high-density urethane gaskets for spacing, vibration dampening or cushioning.
