

Square Clamp for Glass Mall Front

Finish

Bright
Polished
Chrome

Brushed
Stainless
Steel

DESCRIPTION

2" x 2" (50.8 mm x 50.8 mm)

Glass clamp commonly used to join vertical glass panels in shopping mall applications. They can also serve as floating indicators to alert pedestrians of a panel's presence in dimly lit areas.

Features two screws rather than one single clamping screw, providing more stability.

ADVANTAGES AND BENEFITS

Connects two vertical glass panels in order to create a continuous line. Simply install the clamps with the required screws according to glass thickness. Glass fabrication required. Suitable for various glass thicknesses.

AVAILABLE PRODUCTS

Product #	Finish
GC180SQ316PS	Bright Polished Chrome
GC180SQ316SS	Brushed Stainless Steel

Suitable for commercial applications, such as storefront windows in shopping malls.

INCLUDED PRODUCT(S)

Screws included

IMPORTANT INFORMATION

Suggested minimum gap between tempered glass panels: 7/32" (5.6 mm). For safety purposes, use tempered glass. The glass must be shaped according to the section plane provided in the box. Make sure that the product is properly installed using suitable fixtures on the support material. This illustration is provided for visual reference only. Actual product may vary. Order hardware before starting the job. The manufacturer reserves the right to change product and information without notice. Always follow the instructions inside the package. Drawings and technical documents contain examples of hardware from different manufacturers. The customer may not in any case make a claim following the use of these documents. The Company disclaims any responsibility for the structural details related to a construction or project. Installation must always be done by qualified personnel.

DISCLAIMER
