IMPORTANT INFORMATION

Note: Key cylinder is not included. For safety purposes, we recommend using tempered glass. The use of power tools during installation may damage hinges and decorative hardware. The glass must be shaped according to the section plane provided in the box. Always set the product in a suitable material. Never exceed the load or maximum size recommended by the manufacturer. Never use a spray lubricant on this product. Maintenance: clean with a soft cloth and nonabrasive soap or ammonia. This illustration is provided for visual reference only. Actual product may differ from the illustration. Order hardware before starting the job. The manufacturer reserves the right to change product and information without notice. Always follow the instructions inside the package. Drawings and technical documents contain examples of installations with hardware from different manufacturers. The customer cannot under any circumstances make a complaint following the use of these documents. The company accepts no responsibility for the structural details of a construction or project. Installation must be done by qualified personnel.

DISCLAIMER

The preceding information as well as any technical recommendation given in writing, verbally or based on tests is provided to the best of our knowledge. However, recommendations are non-binding and do not diminish your responsibility for determining the correctness of these recommendations and the suitability of the product for your particular purpose. The application, use or processing of our products as well as the production of products based on our technical recommendations are beyond our control and therefore exclusively your responsibility. Sales of our products are subject to our most recent General Sales and Delivery Conditions. Please note that Richelieu will not accept any returns or claims for unpackaged products.
