1/2")

## DESCRIPTION

### Articulated bracket with adjustable height

With its simple design, this stainless steel adjustable inline bracket is ideal for all your handrail and staircase projects. Designed to support round or flat surface handrails off the wall and allows you to adjust to your desired height. The articulated bracket permits to easily tilt the angle of the handrail when used in a staircase application. With its single mounting point, installation is quick and easy. Non-removable backplate.

## ADVANTAGES AND BENEFITS

Several mounting configurations are available. Articulated bracket with adjustable height. Available in 304 grade finish for interior use and 316 grade finish for interior and exterior use. This system can be installed without welding-just drill holes, glue parts, and then tap them into place. The pre-fabricated and pre-finished tube is designed for compatibility with other components.
